

ARE YOU A YOUNG PROFESSIONAL OR DO YOU KNOW A YOUNG PROFESSIONAL WHO IS A FUTURE INDUSTRY AND ASSOCIATION LEADER?

If so, let us hear from you! IDA has formed a YOUNG PROFESSIONALS NETWORK (YPN) for those who go beyond the norm in their career and in their community. We are looking for YPs in the door and access systems industry – both dealers and in manufacturing/distributing -- who are between the ages of 21 and 35 years old.

YPs will be a sounding board for new ideas and programs of the association. They may be invited to attend special meetings and workshops. They will receive recognition in the industry magazine, *International Door & Operator Industry*, and they will be invited to take part in special programs for Young Professionals at the IDAExpo.

Nominations for the YPN will be accepted year round. They may be nominated by members or they may be self-nominated. They can work in any aspect of the door and access systems industry; they are members of the group that will lead all aspects of the industry in the future. *You may nominate more than one individual for this recognition.* All nominations will be reviewed to make sure they fit the criteria, and all nominees will be contacted for their permission to be admitted to the group.
